

DC-3 Dreams Observatory Operating Systems

Announcing ACP Expert 9 for 2022

Get the Most From Your Observatory!

ACP Expert™ manages your observatory 24/7, feeding the images it acquires into the cloud. Give it work months in advance. When the weather is good and it's dark, it gets the job done.

Run your observatory from anywhere and see how it's doing

**Special Pricing
for AIC 2022!**

Pricing good through July 31, 2022

Visit the DC-3 Dreams Online Store at <http://store.dc3.com>. When you check out, enter the coupon code in the box beneath your credit card information, and the discounted price will be calculated.

V9 New Features

- Built-in support for Lunatico Good Night System safety monitor
- More precise and faster auto-focus with FocusMax 5 multi-star feature
- ASCOM standard weather safety and measurement
- Includes PinPoint 7 with support for new ATLAS reference catalog and faster solving.
- **Advanced AI Target Selection**
- Tell Scheduler what you want, and under what conditions – one simple Web form!
- Scheduler acquires your images when the time and conditions are right.
- Automatic restart after weather unsafe with AI target selection.
- Your images just “appear” in the cloud.
- Many other automation features... contact us to review your needs.
